

Revolve and Rotate Model:

- 1) Print on cardstock.
- 2) Cut out pieces of the model and punch holes as indicated.
- 3) Layer one end of yellow rotating bar over the sun and secure it in place with a brad.
- 4) Layer the earth on top of the other end of the yellow rotating bar and secure with a brad.
- 5) Glue the sun to a piece of cardstock with pre-punched holes.

Use the model demonstrate the difference between revolve and rotate.
