

**? I am  
What**

Cut out the Who am I book. Fold the bottom flap up, the side flaps in and the top flap down.

Unfold and glue the gravity picture to the middle box on the inside of the booklet.

Complete the book by either cutting and pasting the questions onto the flaps, copying the information onto the flaps, or writing your own clues to the riddle on each flap.

Writing Inserts can be found on the 2nd page for older students.

**Meteorite**

**I survived  
my trip  
through the  
Earth's  
atmosphere.**

**I usually  
fall into  
oceans, but I  
have also  
fallen on  
land.**

**I come in  
many sizes.  
Some very  
small and  
some very  
large.**

## **Writing Inserts:**

These inserts were created for two reasons. First, mini books printed on colored paper may be difficult write in. Secondly, some students find it easier to write using the lines as guides.

- 1) Print inserts on white paper
- 2) Cut around the dotted lines
- 3) Glue into the corresponding mini books.

\*It may be easier to do the writing before they are glued into the mini books.

These inserts were created to fit the mini books in this file.

A rectangular writing insert with a dotted border and six horizontal lines.
